3. screw og_01-6003
back onto og_01-6002
and it's ready to rip!

We reserve the right to change components and functions of certain items in order to improve our products without any notice to consumers.

INSTRUCTIONS FOR FIRST TIME USE

- Remove battery from the box (Make sure the OG FOUR 2.0 is turned OFF before charging)
- Battery can be turned on/off by rapidly pressing the power button 5 times
- Screw battery into USB charger (careful not to over-tighten)
- Plug USB into laptop or similar charging portal (Battery should flash to show it is in charging mode)
- Let the OG FOUR 2.0 charge for 8 hours (first time only)
- Light on USB will flash red while charging. A solid green light indicates full charge.
- (Even when the light turns green on the first battery charge, wait the recommended 8 hours to gain the best future performance of battery life as lithium ion batteries have a memory)
- Future charges of the battery will take considerably less time (approx 3 hours)

Do not charge in damp areas. Don't charge the power supply near a high-temp heat source. Don't weld or pierce the power supply. If the battery is found to be emitting any odor or heat or showing any visible discoloration or deformities during charging, please cut off the power supply and suspend use. This product can only be used with the provided charger or replacement chargers as sold and indicated by ThisThingRips®. Use of unauthorized charging components and accessories voids all manufacturer warranties and liability.

USING YOUR OG FOUR 2.0

- Screw the filled atomizer onto the battery (don't over-tighten)
- Keep your finger on the button while inhaling vapor
- Release the button when finished inhaling
- (Pressing the button too often when not inhaling or when no e-waxes are present in the atomizer may damage the coil)

MAINTENANCE

- Be sure to clean your OG FOUR 2.0 regularly to prevent clogging and airflow issues
- Using the included alcohol wipes, gently wipe away any excess e-wax residue
- If the atomizer overheats, wait until it returns to room temperature before using
- During the use of the OG FOUR 2.0, if the battery is fully charged but the vapor is light, the atomizer may need to be replaced
- Additional atomizers and replacement parts are available at vapor retail shops nationwide

WARRANTY

- The OG FOUR 2.0 comes with a limited 90 day warranty (battery & USB only) (excludes cartridges)
- Proof of purchase in the form of a purchase receipt or copy thereof is required to show that a product is within the warranty period
